Summary

Flutter Developer specializing in scalable, production-ready mobile applications using Clean Architecture and Bloc/Cubit. Experienced in REST APIs, Firebase, and backend integration using Node.js, with hands-on work in AI-powered features and performance optimization.

Professional Experience

Freelance Flutter Developer 2025 – Present

- Delivered production-ready Flutter applications with scalable architecture.
- Integrated RESTful APIs with authentication and efficient data handling.
- Implemented AI-based features including image upload and processing.
- Applied Clean Architecture and Bloc/Cubit for maintainable codebases.
- Collaborated with backend developers on API design and integration.

Selected Projects

MyFarm AI Analyzer:

 [GitHub](#)

Scalable mobile system for plant disease detection integrating Machine Learning models and backend services.

- Built an AI-powered mobile application for plant disease detection using Flutter.
- Integrated external machine learning APIs for real-time image analysis.
- Implemented efficient multipart image upload workflows.
- Designed the app using Clean Architecture for scalability.
- Managed state and async operations using Bloc/Cubit.

Tech: Flutter, REST APIs, Bloc/Cubit, Clean Architecture

Exam & Quiz App:

 [Play Store](#)

[Google Store](#)

- Built a quiz system using Firebase Auth and Firestore.
- Implemented timer-based quizzes with scoring logic.
- Added animations and audio feedback.
- Developed result tracking and ranking features.

Tech: Flutter, Bloc, Firebase.

Verse Ordering Game:

 [GitHub](#)

- Developed an interactive word-ordering game.
- Implemented drag-and-drop word arrangement logic.
- Added real-time answer validation and feedback.
- Integrated animations and audio feedback.

Tech: Flutter.

Backend API:

 [GitHub](#)

- Developed RESTful APIs using Node.js and Express.
- Implemented CRUD operations and database integration.
- Structured backend logic and request handling.

Tech: Node.js, Express

Education

Bachelor of Science in Computers and Information.

sep 2019 – Jan 2023

Arab Open University (AOU Egypt).

GPA: 2.73 (Very Good)
